

# Asset Bridging

## Overview

Bridging assets to Open Campus is an essential process for users who wish to interact with the Open Campus network. This section provides a comprehensive guide on how to bridge your assets effectively.

- Direct Arbitrum Sepolia to Open Campus Codex Bridge: This is the primary method to transfer assets directly from Arbitrum Sepolia to Open Campus Codex, which is essential for executing transactions on Open Campus Codex.

## Step-by-Step Guide to Using the Official Bridge Portal

The screenshot displays the Open Campus Bridge Portal interface. At the top right, there is a "Connect" button. The main interface is divided into two tabs: "Deposit" (active) and "Withdraw". Below the tabs, a message states: "Support for withdrawals from Open Campus Codex will be added soon". The "From" section shows "Arbitrum Sep..." and "EDU Coin (EDU)". The amount "0.0" is entered. A double-headed arrow icon is in the center. The "To" section shows "Open Campus Codex". Below this, it says "Receive 0.0 EDU", "Transfer time ~15 min", and "Estimated fees 0 ETH". At the bottom, there is a "Connect Wallet" button. The footer says "On Gelato".

1. [Visit the official Open Campus Bridge Portal and connect your wallet.](#)
2. Choose Arbitrum Sepolia as your source and Open Campus as the destination.
3. Input the amount of assets you want to bridge.
4. Confirm and sign the transaction with your wallet.

Wait for the bridging process to complete. The assets will then be available in your wallet on the real network.

After the transaction is confirmed, the bridged assets will reflect in your Open Campus wallet, allowing you to interact with the network and its dApps.

note

The transaction times can vary based on network congestion and gas fees. Please ensure you have enough ETH in your wallet to cover the transaction fees.
