

Web3Auth

Web3Auth is a pluggable wallet infrastructure for Web3 wallets and applications. It streamlines the onboarding of both mainstream and crypto native users in under a minute by providing experiences that they're most comfortable with. With support for all OAuth-based login systems, web & mobile native platforms, Web3Auth provides a seamless onboarding experience for your users

You can follow a quick start guide [here](#)

In order to use Web3Auth on Open Campus testnet we will need to adapt the network config file to

```
const chainConfig: {  
  chainNamespace: "eip155",  
  chainId: "0xA045C", // Chain Id 656476 in hex  
  rpcTarget: "https://rpc.open-campus-codex.gelato.digital",  
  displayName: "Open Campus Codex",  
  blockExplorer: "https://opencampus-codex.blockscout.com/",  
  ticker: "EDU",  
  tickerName: "EDU",  
},
```
