What is Open Campus?

Open Campus, also known as EDU Chain, is the first Layer 3 (L3) blockchain built specifically for the education industry. It aims to leverage the traditional educational landscape by bringing it on-chain, creating a secure and transparent ecosystem for all educational activities.

- **Educational Blockchain**: The first of its kind L3 blockchain tailored for educational purposes.

- **Learn-to-Earn Ecosystem**: A vibrant platform that links learning with earning, providing real-world value to educational achievements.

- **Transparency and Security**: Blockchain technology ensures that all educational records and transactions are secure, immutable, and transparent.

- **Trackable Learning Journey**: Every educational milestone and achievement is recorded on the blockchain, making it easy to track and verify progress.
